They may also be terminated by 365 HEALTHCARE at any time for any reason. By this document, 365 HEALTHCARE in no way intends to imply, without a written document from the CEO of 365 HEALTHCARE, that there be any agreement for employment for any stated period of time or a guarantee as to the number of hours you will work in a given time period.

The personnel manual is intended to provide employees with a general understanding of our internal policies. The information in this personnel manual should be helpful in familiarizing new employees with the company.

365 HEALTHCARE is a locally owned and operated supplemental nursing service. As the word supplemental implies, we do not guarantee a specific number of hours or shifts.

Flexibility and variety are two of the reasons that people choose temporary staffing. You may choose the dates and shifts that are most compatible with your schedule. By choosing those dates at least one week in advance, you will enhance your opportunity to work the hours and dates you desire.

365 HEALTHCARE cannot guarantee any specific assignments at the facility. That process is at the discretion of the personnel at the facility. Every effort is made to place you in the area of your expertise; however, you must accept assignments according to the Charge Nurse at the facility. "Charge" positions are designated by the facility at their discretion.

A current employee who tests positive for drugs/alcohol will be terminated. 365 HEALTHCARE reserves the right to suspend employees without pay pending the results of

any test investigation and/or for any violation of this policy. 365 HEALTHCARE reserves the option to randomly test for the presence of illegal drugs under certain conditions.

m. Criminal background check is mandatory.

You will be required to attend an Orientation session; at that time all forms are completed and rules governing our service are explained. The time required for an Orientation sessions is approximately 1-2 hours and they are held on a weekly basis.

All personnel files are reviewed on a monthly basis for items requiring renewal. Non-compliance with renewal policy may result in ineligibility to work until compliance occurs. We will attempt to notify you of items needing renewal, but you are responsible for keeping your credentials up-to-date.

In accordance with Title XXII guidelines, **you must carry a copy of your current CPR certification and licensure with you at all times.** The State of California Health Department may request to see these anytime during your shift; the facility has the right to also view and copy them, if so desired.

2. Placements

365 HEALTHCARE STAFFING COORDINATORS do all scheduling and cancellations.

- a. There are no exceptions to this rule. If you change a shift with another employee or change time with a facility, please make certain that the Staffing Coordinator is informed immediately. Our **insurance** is not in force when our Staffing Coordinators have not scheduled you.
- b. The Staffing Coordinator will verify scheduling changes with the appropriate people, making certain that everyone has the correct information.
- c. The policy of 365 HEALTHCARE on the placement of any employee shall be to effectively match the nursing skills of the employee to meet that of the particular client. A record of each employee's abilities shall be compiled and available to the coordinator when placing employees on assignments. The employee shall have the privilege of stipulating to 365 HEALTHCARE their choice of preferred assignments.
- d. All employees need to contact 365 HEALTHCARE with availability every Monday on a weekly basis. Providing us with your availability enhances the opportunity to schedule you for as much work as you may want. If you tell us you are available, we expect to be able to count on you for that day and time.
- e. Staffing Coordinators are available 24 hours a day, 7 days a week for **scheduling purposes only**. If you have questions or complaints that are not pertaining to staffing, please call Monday through Friday during business hours. Do not call before or after that time, the coordinator will not be able to help you.
- f. If you find that you will be late, call the office and the Staffing Coordinator will call the facility and let them know. **DO NOT CALL THE CLIENT YOURSELF.**
- g. Chronic tardiness may result in dismissal.
- h. Remember, at all times, that 365 HEALTHCARE is your employer and act accordingly.

3. Cancellation Policy

Employees are under no obligation to accept an assignment when called by 365 HEALTHCARE coordinators. However once an assignment is accepted, 365 HEALTHCARE expects that all family and child care arrangements as well as transportation arrangements have been made and the employee will complete the assignment.

365 HEALTHCARE will endeavor to cancel requests for scheduled employees two hours before the start of the shift. If 365 HEALTHCARE does cancel a specific employee by notifying or attempting to notify the employee at least two hours prior to the start of the shift, 365 HEALTHCARE will have no further financial obligation regardless of whether 365 HEALTHCARE is able to contact the employee before arrival at the hospital. It is the responsibility of the employee to be available by phone at least two hours prior to the start of a scheduled shift.

Should the employee arrive at the hospital without receiving notification of cancellation, employee must sign in on the sign-in sheet and indicate late cancellation.

A twenty-four (24) hour, seven (7) day a week coordinator is available to handle all employee cancellations or problems. All employees are to call 365 HEALTHCARE as soon as they know they are not able to fulfill an assignment. Again, do not call the Client. A four (4) hour cancellation notice is required for any shift cancellation by any employee. Failure to give four (4) hours notice can and will result in corrective action up to and including termination.

An employee canceling assignments for health reasons or returning from medical or maternity leave must submit a "return to work statement" from their attending physician.

Repeated cancellations after acceptance of assignments destroy your credibility with 365 HEALTHCARE as well as with our client facilities. If you have frequent cancellations some facilities may refuse to schedule you at all.

4. Confirmation Policy

A 365 HEALTHCARE staffing coordinator will call you two hours before the beginning of the shift to confirm or cancel the shift. Please note that there is a 30-minute window before and after the two-hour confirmation/cancellation time. If you do not receive a confirmation/cancellation telephone call, and/or you are away from the telephone, it is your responsibility to call the 365 HEALTHCARE office to verify confirmation/cancellation status of hospital shift.

5. Staff Relief

- a. All employees shall report to the facilities nursing office, unless otherwise designated, at the beginning and end of each shift. You must sign in and out on the appropriate form.
- b. All 365 HEALTHCARE employees shall follow the policies and procedures outlined by each facility as long as they fall within employee's skill capacity.
- c. Each employee, although employed by 365 HEALTHCARE, while on the job, will be directly responsible to the facility's supervisory personnel.
- d. **All overtime must be approved by the nursing supervisor and must be signed for on the 365 HEALTHCARE sign-in sheet.** In addition, 365 HEALTHCARE is to be notified. Failure to obtain permission for overtime by appropriate facility supervisor and 365 HEALTHCARE may result in delayed or no payment.
- e. All personnel are to wear appropriate agency identification while on duty.
- f. In the event of any questions, problems, or concerns regarding your assignment and/or job description in regard to assignments, please call the 365 HEALTHCARE office immediately.
- g. Carry your own pens, scissors and stethoscopes.
- h. If while on assignment any problem occurs involving you and any other 365 HEALTHCARE employee, it should be reported to our office immediately. Do not become involved in any arguments with the client or other co-workers, but rather, inform our office of the problem and allow us to intercede on your behalf.

- i. If you become ill, or an emergency should occur keeping you from fulfilling an assignment, we ask that you call us IMMEDIATELY so that we may find a replacement for you.
- j. Frequent cancellations or a failure to arrive on assignment will be grounds for termination.

6. Orientation

Some facilities require some form of orientation. The amount of time required by each facility varies. Some facilities require computer training classes and orientation prior to the first shift worked. The staffing coordinator will explain what is required for orientation to all employees prior to scheduling first shift with a facility. Orientation time worked at the facility is paid at the orientation rate. (Usually less than regular pay rate)

Some facilities require that their specific pre employment orientation "packets" be completed by the clinical staff at 365 HEALTHCARE before the first shift is worked, and there is no pay for this required activity.

The first time you visit a facility the following guidelines should be followed:

- Report approximately one (1) hour early for orientation (it may vary for each facility).
- Carry photo ID when reporting for assignment.
- Take your nursing license and certifications with you.
- Report to the appropriate supervisor.
- It is expected that the healthcare practitioner locate and comply with the facility policy and procedures manual, locate fire pulls, crash cart, med. room, linen cart, and appropriate exits before your shift starts.
- Always dress in proper attire when working at the facility. Orientation is only paid when facility staff has properly verified the time.
- Occasionally, a 365 HEALTHCARE employee may show up early as directed for orientation shift and no one is available for orientation. Please take it upon yourself to utilize this time to become familiar with the floor layout and the location of vital items you may need in order to function effectively on your shift. It will be to your advantage to have knowledge of the location of the policy and procedures manual, fire pulls, crash cart, med. room, linen cart, and appropriate exits prior to the onset of your shift.

7. Employee Health and Safety

Our client hospitals have accreditation policies, which require staff employed in the facilities to have annual physical examinations including Tuberculin skin test (PPD) or chest x-ray (if TB test shows a reaction). Fire safety, body mechanics, infection control, and cardiopulmonary resuscitation (CPR) certifications are also required annually.

In regard to these issues, 365 HEALTHCARE'S manager/supervisors will ensure compliance with the policies of the hospital facility to which 365 HEALTHCARE employees are assigned.

XVI. DO NOT SEND PREVENTION CURRICULUM

Do Not Sends are usually subjective in nature. However, there are things we as Registry nurses can do to avoid Do Not Sends.

1. Be on time to all shifts.

Be 30 to 45 minutes early, arriving to the floor when working at a hospital for the first time.

To ensure being on time, preparation begins the night before, or day of your night shift.

Have clothes, nursing tools, lunch etc. prepared before sleeping.

Get to bed early to ensure 8 hrs of sleep.

Awake early enough to eat before you leave for the shift.

Make sure you have accurate directions and facility phone number before you begin driving to the shift.

Do not sign in and out at the same time!

Rationale: Arriving early allows the Registry nurse to familiarize themselves with the unit, get organized, meet the Charge Nurse and make a positive first impression. Signing in and out at the same time is fraud.

2. Take a detailed report.

Head to toe, system by system, Neuro to Skin.

Review your patient's charts, (ten to twenty minutes per chart) after report, and before lunch.

Rationale: This is of paramount importance! Sets the tone for the start of the shift, provides the foundation for the plan of care, focus of initial assessments and interventions. Taking a detailed report and reviewing the patient's chart during the first half of your shift also prepares the Registry nurse to give a knowledgeable, relevant report.

3. Show Initiative.

Find the Charge nurse, introduce yourself, ask to be shown around, and inquire who your resource person may be for the shift (if initial shift @ facility), if not the Charge nurse.

Communicate early and often any relevant information to the Charge nurse such as: changes in patient condition, difficulty with or questions about; assignment, staff, equipment or documentation tools.

Rationale: Allow Charge nurse to make adjustments or provide assistance in a timely manner in order to provide the safest patient care and prevent a delay in patient treatment.

4. Avoid handling personal business during shift.

Talking on mobile phones or using facility information systems for personal use (other than in an emergency or away from patient care area during breaks) is a sure way to make an impression that will reflect poorly on the Registry nurse.

Rationale: This behavior often leads to directly to Do Not Sends.

5. When in Rome... Make every attempt to do things the way the Facility you are working in does things.

Some Facilities want two nurses to sign off on all **insulin** administration, **narcotic** administration and **lab specimens**.

Please respect all of our facilities policies and procedures, without complaint or argument.

However if you have been asked to perform a task or procedure you feel will place a patient in danger or you feel unqualified to perform, contact your immediate supervisor and/or go up the chain of command until you feel you have been able to express your concern professionally and respectfully.

If one of us as registry nurses encounters a situation in which you feel obligated to challenge a request in order to maintain the safest patient care environment, it is of vital importance that you:

1. Communicate with 365 HEALTHCARE Staffing Services.
2. Document the incident in your own words before leaving the facility.
3. Furnish signed and dated copies of your documentation of the incident to 365 HEALTHCARE Staffing Services, the Nursing Supervisor of the facility in which you were working, and retain a copy for yourself.

Rationale: Knowledge of, and compliance with each facilities policies and procedures are fundamental elements of professionalism, providing safe patient care and creating an impression that makes a facility ask for a Registry nurse by name.

6. Practice the 5 rights of medication administration.

1. Right Patient
2. Right Medication
3. Right Dose
4. Right Time
5. Right Route

If a Registry nurse is confused regarding any aspect of the medication administration process, clarification with the physician and/or Pharmacist becomes an immediate priority, to ensure safe medication administration.

Rationale: Medication errors are serious and can lead to negative patient outcomes, extended hospitalization, severe injury and death.

Most importantly for a careful, knowledgeable and conscientious Registry nurse, medication errors are almost always preventable.

7. Be conscious of the Joint Commission National Patient Safety Goals in our practice.

1. Improve the accuracy of patient identification.
2. Improve the effectiveness of communication among caregivers.
3. Improve the safety of using medications.
4. Reduce the risk of health care-associated infections.
5. Accurately and completely reconcile medications across the continuum of care.
6. Reduce the risk of patient harm resulting from falls.

A complete and current set of National Patient Safety Goals should be posted or be easily accessible on any unit in any Acute Care Facility.

Rationale: "The mission of Joint Commission on Accreditation of Healthcare Organizations is to continuously improve the safety and quality of care provided to the public" through the "support of performance improvement in healthcare organizations."

8. Ask the Charge nurse to Audit your Charting a few hours before the end of a shift.

Having the charge nurse review your documentation within a couple of hours of the end of your shift displays exceptional accountability and reduces the healthcare provider and facility's exposure to liability. Thorough documentation also helps convey important information to the following shift and ensures that the necessary facts will be available when and if the chart is reviewed in the future.

Rationale: Complete documentation, is an essential component of effective, efficient nursing. Since many Registry nurses work in multiple facilities in a short period of time, it is not an easy task to dot every "i" and cross every "t" without help from a knowledgeable source.

9. Practice excellent customer service.

Customer service extends further than our patients and their families; it includes every person we come into contact with while we are working. Our customers are every nurse, pharmacist, physician, respiratory care practitioner, etc. Every time we interact with another human being at work it is imperative that we greet that person with a friendly and helpful attitude.

Rationale: Treating our patients, their families, our colleagues and interdisciplinary team members with friendliness, respect and kindness creates an environment where being helpful and taking the extra step to solve someone's problem is not the exception but the "norm".
